

BRUSH RAKE

Series TP6500

If you have a problem with brush removal, here is a rugged heavy duty brush rake you may be interested in. This rugged heavy duty Brush Rake is made with high quality materials.

The unique feature of this Brush Rake is it's floating design. This feature allows the teeth to follow the contours of the ground without digging in.

Contact Edwards regarding your particular application or need.

Width of the Brush Rake.....7 feet
Length of teeth.....5-1/2 feet

Check these features:

- Heavy duty, removable teeth
- Heavy, torque resistant, square tube frame
- Variety of special mountings available
- Can be used as an attachment for your Edwards Forklifts
- Can be adapted to your loader frame attaching points
- 3-Point mounting are also available for the Edwards Front Mount 3-Point Hitch or tractor 3-point hitch
