

BRUSH SPIDER

Series BS8300

The Model BS8301 Edwards Brush Spider now enables you to clean around trees and in between trees in orchard rows without extra tractor trips or hand raking. The Brush Spider sweeps prunings, leaves, dead fruit and other debris away from trees and into the path of your mower, shredder or rotary tiller. It is built with durable polyurethane sweeping fingers to provide long life with action that is gentle on trees and irrigation risers. The unit attaches easily and quickly to most types of mowers, shredders and tillers and is hydraulically operated for variable speeds.

- Sweeps brush and trash away from trees and cleans in between orchard rows.
- Attaches quickly and easily to most all types of mowers, shredders and tillers.
- Cleans ground between rows for efficient chemical application.
